

**DEPARTMENT OF INDUSTRIAL ENGINEERING
COLLEGE OF ENGINEERING**

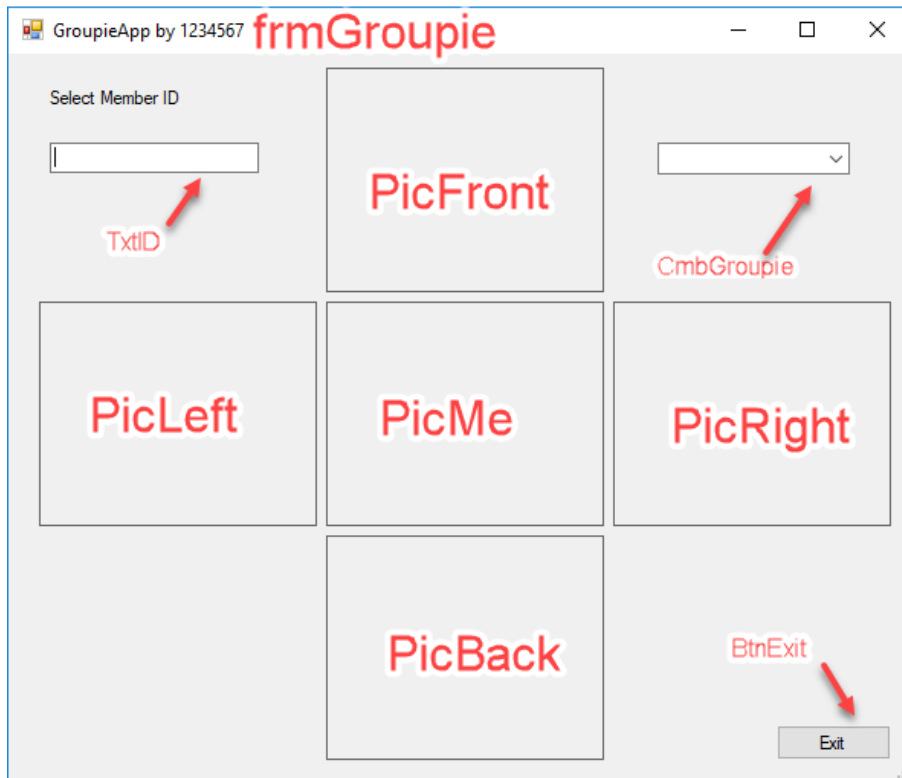

Date: __ Apr 2018

**Computer Applications in IE-1
QUIZ#03**

Time Allowed: 40 mins (Section BA)

Max Marks: 25

Develop an app that displays the groupie. You must use **embedded resources** to display the pictures. You have to demonstrate the working app and upload it through designated form. Follow the names for the controls as provided in the figure. Name of the App should be:

Groupie IE322S18 ID

Names of the pictures should be actual IDs of the corresponding person.

<https://goo.gl/forms/DmZb2ghdmGDAVGPF1>

- First, user adds his ID in the combo box by entering it into textbox **TxtID** and clicking **PicMe** picturebox.
- If ID is not correct or empty, it will display Message "Enter your User ID".
- If ID is correct, his picture is displayed in PicMe and his ID is added in **CmbGroupie** combo box.
- Then he enters the ID of the person to his left, click on the PicLeft picturebox. His picture is displayed on **PicLeft** picturebox and his ID is added in **CmbGroupie** combo box. If nothing is entered in Textbox, Message appears that "No One on the Left"
- Apply Similar functionality to Other picture boxes.
- If the selected number is user ID, his selfie will be displayed.

[Naming of app, form, resources, controls](#)

Name of the app: **Groupie_IE322S18_ID**

Name of the Form: **frmGroupie**

Title of the form: Groupie of <<ID>>

Name of the picture: YourID.jpg for example,
1234567.jpg
